

Calico Classroom

Mrs. Kimbrough and Ms. H

Curriculum Overview:

Your child's work plan from last week was sent home Wednesday (my fault 😊) and, as stated in last week's newsletter, looks rather empty. We decided that we will use blank work plans from now on and each student will fill in that day's jobs on the sheet. This ensures that they are well aware of their responsibilities during independent work time.

Accelerated Math

This week, we "started fresh" in Accelerated Math, as last week was a trial run for us to work out any remaining issues with printing, etc. I placed the students in one of four math groups (Red, Blue, Green, and Orange) according to the grade level they tested into on the STAR Math test. Adjustments will be made as necessary. This is going to be a successful and fun year in math!

Snacks

It is important for students to bring a healthy snack to school. This should include some type of protein (yogurt, protein bar, etc), fruits or vegetables.

The volunteer schedule will be up and running soon!

Homework reminders:

Your child should be bringing home homework practice EVERY day, whether they finished it in class or not. They are instructed to review it (with a parent if available) to help them learn the material better.

Important Dates:

Recycle every Friday

Spirit Day: Wear Tie Dye – September 16th

International Day of Peace – September 21st

Fall Picture Day – September 27th

CSUS Aquatic Center Field Trip – September 30th
