## What's Happening In our Class?

WELCOM BACK!

I hope everyone's break was great and that you are as rested and excited as I am to be back.

I would like to welcome our new student Marisa, as well as her family to CMP Capitol campus. We are excited to have you!

This week, we have been getting acclimated to our daily procedures. I changed the room set up a little bit, which the kids liked, and have already learned where things are again. Next week, I will be adding Test Prep to the 2<sup>nd</sup> and 3<sup>rd</sup> grade students work plans. This will help prepare them for the STAR test in May.

Things we learned this week were (in grade order): the Verb, Pronouns, and Synonyms, skip counting and multiplication, graphs, and writing money. We all learned about the parts and functions of fish, which was really cool ☺

### Person of the Week (P.O.W Student)

Please bring to school on Monday:

- Small (no more than a half inch) meal worms for Ms. Bobbie
- One item for each day of the week to share with the class.
- You will be a class helper in any way needed

### Reminders:

- If you're in need of hours please help with items we need **right away**, as the time shopping and money spent will apply to your hours.

If you would like a free ticket for your child to go to the Discovery Museum at Marine World in Vallejo please read and fill out the Read to Succeed reading log form that was put in your child's communication folder on Monday (not the home work reading log).

- 5/17 Soil Born Farm

### Acknowledgements: THANK YOU!!!!

- Natali for bringing in all of her Me Museum items and meal worms for Ms. Bobbie! It was great getting to know her a lot more this week; seeing items that are special to her and hearing her stories have been awesome!
- All the parents for volunteering to chaperone/drive to the Nimbus Fish Hatchery today!
- Amy (Anais' mom and our room parent) for our January calendar and coming in to help!
