Dates to Remember

Recycling—Each Friday

October 29—Harvest Festival

October 30—Reptile show, Sacramento Convention Center

(Ms. Debbie will be outside at noon)

November 1 Picture Make Up day

November 4—Dress for Career Day

Curriculum and Instructions

The Golden Poppies have certainly learned about Antarctica! We have learned about the largest penguin (the Emperor Penguin) as well as the first explorer, Robert Falcon Scott. We have also concluded our unit on apples, and now all of the kids know who the find the apple star inside the ...'little Red House, with no windows and no doors'. Ask them to show you!

We are continuing with our unit on pumpkins, and want to thank all of you for such amazing donations! We are measuring our squash, comparing and contrasting seeds and rinds, and estimating the number of seeds in each squash.

Next week, we are moving from Antarctica to North America—we will be beginning with the North Pole to compare the animals and climate from our studies on the South Pole.

We will also be celebrating with Stone Soup at the end of the month, so be on the lookout for sign ups.

We also had a very busy week this past week sharing our classroom with observers from other CMP campuses. The children received some lovely compliments from our Kindergarten teachers at sister schools, and are very excited to continue exploring our curriculum.
