Dates to Remember

Recycling—Each Friday

9/5/11 School Closed for Labor Day/No Club M

9/12 Governing Board Meeting

9/13 Room Parent Meeting

9/16 Spirit Day—Wear Tie Dye!

Curriculum and Instructions

We have been diving into our assessments and cultural lessons! So far we have covered living and non living, land air and water, and next week we are going to explore vertebrates and invertebrates as well as land forms.

We have also been exploring some different types of music from around the world, and keeping time with our rhythm sticks.

The children are beginning their math and language groups, as soon as the final assessments are completed. The information we collect is invaluable in helping us place your child in the most appropriate and engaging areas of our curriculum.

Thank you all for helping us have such amazing drop offs each morning, and respecting the children's space in the classroom.

Also, please make sure that your child is being sent to school with their placemat and cloth napkin each day—it really helps us remain consistent at lunch time.
