10/25 Community Parent meeting 5-6pm

Curriculum and Instructions

All of the children are participating in their small group Montessori lessons at their individual pacing.

As a group, we had a wonderful time studying invertebrates, and are moving on to fish for the month of October. We are also continuing our study of land forms, and introducing the globe and hemisphere maps for our geography studies. We will be focusing on Antarctica as our first continent for the month of October, so if you have any information you would like to share, please let me know!

We will be having our parent volunteer meeting Thursday October 6th—this is a brief meeting for those of you who want to help in the classroom, and we will be covering how to sign in for Rosetta Stone, how to read with the children, and other parent jobs.

There will be a volunteer sign up on line starting next week—October 10th.

This is when we will be working with parents in the classroom. The first Kindergarten Parent/Community meeting will be on Tuesday October 25th, from 5-6pm. More information to follow.
