

Voice Dialer Message

1-26-12

Good Evening, Carmichael Families,

This is Ms. Kim with an important announcement. If you are unable to receive this entire message, please go to our website under Newsletters to read all Voice Dialer messages.

We have all been aware of the traffic hazards on Gibbons Drive during our loop times. Now that we are no longer sharing the side parking lot with the other charter, we can take advantage of that area for another drop-off loop.

Therefore, we are asking that families with 3rd to 8th graders, who are able to exit their car independently, to use the gate by the 700 wing for morning drop-off. To use this loop, please come in the Engle driveway and use the one way drive-through loop so your child will exit at the curb. Pull through the loop and also exit out onto Engle.

Families with younger children should still use the Gibbons loop where there are volunteers to assist the children from the car.

The gate by the 300 wing is for supervised walk-ins only, and not as a student drop-off area, since there is no staff overseeing students in that wing.

The pick-up procedures will remain the same, utilizing the Gibbon's loop only. We are asking, for safety reasons, that when exiting the loop, to please turn right only. Left turns cause a back-up of traffic as well as increasing the risk of accidents.

Thank you so much for your cooperation and patience to keep our loops safe and efficient.

We have also been observing some of our families parking in the marked spaces for the staff of other programs at La Sierra. Please park only in CMP or Visitor parking spaces only.

A reminder that tomorrow is a minimum day, and report cards will be sent home with the students. I hope you are able to make the pancake breakfast tomorrow in the Gibbon's Room, hosted by the Anemone class. It will be a fun and delicious start to your day!

Have a good night, and I hope to see you around the campus soon.
