Happy Groundhog Day!

Weekly Work Planners

Weekly work planners will once again be going home in Thursday Folders. Please remember to look over the weekly planner and discuss the achievements and areas of improvement with your student. The work plan not only helps keep students focused and on track but it is a great reflective tool as well. **WORK PLANNERS ARE DUE BACK TO CLASS SIGNED BY THE FOLLOWING WEEK!**

Science Fair/Pancake Breakfast

The science fair and pancake breakfast were originally scheduled for February 11th. Due to some unforeseen circumstances, it has been moved to Saturday, February 25th. This change in date will allow for a couple more weeks to make that science fair project top-notch! Science projects are due on Friday, February 24th in the morning. Students will present their project to the class throughout the day. Projects are available for pickup after the fair or on Monday. The pancake breakfast is also a fantastic event to participate in. The fellowship hall will be open for pancakes at 8:30 until 10:00. The classrooms will be open for the viewing of science projects from 9:00-12:00. Hope to see you here!

Rhodes School

Last week in the Thursday folders, 3rd graders received the packet for Rhodes School. In that packet was a lot of valuable information such as permission slip form, waiver form, costume ideas and lunch suggestions. Permission and waiver forms and payments are due February 15th. Prior to the March 27th field trip, students will learn about the life and times of the late 1800's. If you have questions please let us know. This is an amazing field trip and the students are really looking forward to it.

Wish List Items

At the beginning of the year the Aquamarine class was very generous in their donations of class supplies and items that were needed. We are at that point where we are in need of a "refill". The items that we are requesting are: Kleenex, table wipes, hand sanitizer, white paper, and plastic utensils. We appreciate all of your support!

Reading Practice

Our weekly homework of reading logs is a helpful way for students to get extra reading practice. An area of reading where all students can use more practice is reading out loud. If your student doesn't regularly read out loud, take some extra time just to sit and listen to your excellent reader. The extra reading practice will help during literature group.

Ms. Angie's Temporary Leave of Absence

February 8th will be my last day in the Aquamarine class until the end of spring break. Due to a scheduled medical procedure, I will be at home recuperating during that time. For further information, please see my letter in this week's Thursday folder. I will miss you all!

2/2 NAEP Test for 9 year olds

TOMORROW- 100TH DAY OF SCHOOL!

2/10 Hearing Test for 2nd Grade!
