

First Grade Book Report

2011 – 2012

For the First Grade Book Report, due the week of October 24th We are asking that the children read and report on a book (fiction or non-fiction) relating to Animals. Your student has two (2) possible projects from which to choose:

- A Book Mobile – Different scenes and characters are represented through the mobile. Please do not photocopy any portion of the book, but rather allow/encourage your student to draw the different parts.
- A Diorama – A scene is recreated in a box (shoebox). Paper drawings, painting, small toy figures, or handcrafted objects are used to create the scene.

Obviously there are several **key pieces of information that each project must contain: title, author and illustrator**. A rubric has been attached for your convenience. We encourage you to choose a book in Accelerated Reader so your child can take a quiz on the story. Just go to www.arbookfind.com to search if there is a quiz. If you have any questions about any of these books, don't hesitate to ask. This is not meant to be stress producing, but rather, a fun project for you and your student to do together. We are looking forward to the reports.

~Your 6-9 team
