

Eucalyptus Class Newsletter January 30, 2012

*"At the center of non-violence stands the principle of love."
--Dr. Martin Luther King, Jr.*

Person of the Week

We are recognizing Dr. Martin Luther King, Jr. this week. We honored him on his birthday in January and we will continue to acknowledge him this week while we enter Black History Month .

Science Research Paper/ Science Fair Project Update

The Eucalyptus students have been working hard collecting facts over the last couple of weeks for their research papers. At this point they should be organizing their facts into subtopics in their outlines. Fourth grade students have outlines in their packets and fifth grade students should be writing a first draft.

It sounds like most of the students have begun to conduct experiments at home and have started to create their science fair projects.

Just a reminder, the Science Fair project should illustrate the Scientific Method: a hypothesis, conduct experiments, make observations, collect data, develop a conclusion.

Dates to Remember

- 2/2 School Assembly: Courage
- 2/3 Spirit Day "Wear your walking shoes"
- 2/16 Science Fair 3:00-5:00pm
- 2/17 No School Friday and Monday
- 2/20 President's Weekend

*Please see School Newsletter for more details.

Report Cards

We are pleased to say that our first report cards have gone home to our families.

Please let us know if you feel that you did not receive certain reports or if you have questions about information received. We hope that all the information that went home is useful for you in monitoring your child's progress.

We certainly hope there were no surprises and that everyone was pleased.

Homework

- Spelling and math workbooks in the Friday homework folders.
- Ongoing preparation for the Science Fair
