

Eucalyptus Class Newsletter December 12, 2011

Spring Semester

We are excited to get back into the classroom over break and give the Eucalyptus classroom environment some TLC. The Eucalyptus teachers also plan on building on the many positives from the first semester throughout our daily procedures including: morning circle, transitions, daily schedule, after school programs, and care of environment. Accelerated Math has started in the Eucalyptus class and our students will begin to customize the program to challenge them and to meet their goals and needs.

Curriculum Update

This week Eucalyptus students are finishing the first semester with a number of exciting math and science labs including: mineral classification and weights and measures stations. Students are also creating personalized books for their fairy tales using water color. We will also be concluding the fairy tale unit with a viewing of the movie "Tangled" on Thursday.

Secret Pals

Thank you parents and students for making this year's secret pals gift exchange a positive experience for everyone. Students arrived to school Monday morning prepared for the week and excited to celebrate the last week of our first semester.

Homework

- Spelling and math workbooks in the Friday homework folders.
- Fairy Tales due Friday.

details.

Have a wonderful break
Eucalyptus families!

Person of the Week Mrs. Placek

Mrs. Placek celebrates her **30th Birthday** this week! She's looking forward to sharing a little about herself with the Eucalyptus students as we head into our winter break.
