Classroom News

After taking the MYPAS Mid-Year Assessments last week, we are back to our regular schedule.

We are finishing our unit on electricity and magnetism and will begin body systems.

The fourth graders are working with the many functions of fractions and exploring adverbs. The fifth graders are working on ratios and percents. They are also reviewing all parts of speech and will soon beginning diagramming sentences. We all continue our Test Taking Skills Practice on a daily basis.

HELP

We have lost a garden parent. We would really love to continue of study of nature through our garden. You would take a small group of students and work through a prepared lesson. A couple of hours on every other Wednesday morning is all it takes. Here's hoping for a volunteer.

Thank you,
Mrs. Kelleher and Mrs. Galiata

Dates to Remember

- | | |
|----------------|---|
| Feb. 19 | Homework Due |
| Feb. 25 | Science Fair 3:00-5:00pm |
| Feb. 26 | Science Fiction Book Report Due |
| March 5 | Homework Due |
| March 5 | Second Installment Payment Due for End of Year Camp |

*Bakers for the week of Feb. 11^h are:
Adri, Caleb, Alexis, Sequoia, Chantal,
and Jarrett*

*The special person of the week is
Patrick. He loves baseball and other
sports. Lasagna happens to be his
favorite food.*
