Executive Director's Message

California Montessori Project (CMP) is a public charter school network (K-8) serving approximately 1500 students in the greater Sacramento area. Previously sponsored by Wheatland School District from 2001 through 2006, CMP currently operates under four charters, authorized by Buckeye Union, Elk Grove Unified, Sacramento City Unified and San Juan Unified School Districts. Our campuses are located in Shingle Springs, Elk Grove, Sacramento, Fair Oaks, and Carmichael.

The Montessori philosophy states that a child has an innate desire to learn and produce purposeful, meaningful work. Dr. Maria Montessori believed that the role of an adult in a child's education is to provide an appropriate environment, complete with tools and methods, to facilitate the child's own discovery of knowledge and skills at the time when it has the most impact for him/her as an individual. This system has a foundation in trust and respect of the individual, and a belief that children will soar beyond traditional expectations.

California Montessori Project offers an environment which has the tools, programs, resources, and support to enable students to become educated to high international academic standards, and to develop themselves to their fullest capacity as competent, happy, productive individuals, family members, employers/employees, and contributors to a better society and a peaceful world. This is achieved through a strong commitment from the community, parents, teachers, community groups, the legislature and, most importantly, the individual child. CMP is grounded in a philosophy of trust in individuals to seek their greatest potential.

CMP holds that an educated person is well-rounded and balanced. The CMP student shall become a collaborative member of a community, motivated to set and achieve high goals. CMP encourages students to demonstrate empathy towards others through respectful and productive communications. The student is guided to view him/herself as a global citizen who is empowered, and responsible, for making positive changes in the world and within the immediate environment. The CMP student develops personal habits leading to a healthy lifestyle which include balancing leisure, work, family, exercise, nutrition and community.

While recognizing that the traditional system meets the needs of many, CMP offers an option where students work in multi-age classrooms, with individual learning plans of instruction and materials which are progressive, and frequently self-correcting.

Parental Involvement

Parents play an active role in the California Montessori Project. Many parents exceed the required 40 hours of participation time, as they assist in the classrooms, chaperone students on field trips, volunteer in the office, and organize special school events and fundraisers. Parents are also involved in many leadership roles, including service on the Campus Advisory Council, Gardening Committee, Fundraising Committee, and the CMP Governing Board.

For more information on how to become involved, contact Mickey Slamkowski, Principal, at (916) 714-9699.

School Safety

California Montessori Project has a School Safety Plan and Emergency Preparedness Handbook that are reviewed throughout the year with staff and teachers at each campus.

The CMP school wide Safety Plan was submitted and approved as part of the 2006 Charter Petition in April 2006. Key elements of the plan include monthly drills and crisis intervention plans.

This plan is reviewed annually and was most recently reviewed, updated, and discussed with school faculty in August 2009.

California Montessori Project's Mission

The mission of the California Montessori Project is to offer a quality, tuition-free Montessori education to every child in the state of California.

Principal's Message

The California Montessori Project, Elk Grove Campus, is a Montessori public charter school offering kindergarten through eighth grade education under a charter authorized by the Elk Grove Unified School District. We are accredited by the Montessori School Accreditation Commission (MSAC), the Western Association of Schools and Colleges (WASC), and the American Montessori Society (AMS). Our program quality is sustained by supporting our California credentialed and Montessori trained faculty with continued professional development and quality Montessori materials in low student/teacher ratio classrooms.

We encourage our students to be independent learners and problem solvers. Our students utilize individualized work plans to allow them to work at their own level and pace. Cooperation and positive peer relationships are supported through daily class meetings. Respect is strongly emphasized and reinforced on a daily basis: respect for self, respect for others, and respect of our environment.

We have a strong school community with a high level of family involvement. Parents are encouraged to volunteer in the classroom, participate in field trips, and help organize special events and fundraisers.

There are many opportunities for our families to be involved as a community and get to know one another. Among such events are the Annual Walk-a-Thon, Science Fair and Pancake Breakfast, Art Walk, Chili Cook-off, Family Dance, Continent Party, Ice Cream Socials, and class performances.

Enrollment and Demographics

The total enrollment at the school was 286 students for the 2008-09 school year.

Textbooks and Instructional Materials

Montessori curriculum and materials used at the CMP Elk Grove Campus are aligned with the California State Standards. The school uses State-adopted texts and materials to complement the Montessori materials.

Textbooks and Instructional Materials List		
Subject	Grade	Textbook
English-Language Arts	K-3	Primary Phonics, Modern Curriculum Press, Open Court, Houghton Mifflin
English-Language Arts	7-8	Language Arts: Prentice Hall Literature
Mathematics	4-6	Harcourt Brace Math

Professional Development

CMP is committed to highly trained teachers and dedicates significant resources toward ongoing professional development. Each year, CMP reserves five non-instructional service days for focused staff training and professional development to include topical areas such as special education, Montessori curriculum development, academic planning and other areas of educational specialty. CMP also offers occasional afternoon and weekend professional development activities in partnership with local area training programs and presenters. In addition, staff members are encouraged to seek out other professional development opportunities that will directly enhance their teaching practices in line with the school's mission and vision. Staff is offered tuition incentives to assist with attendance at approved outside professional development events and activities.

CMP provides grade level mentors and campus educational specialists to support staff for success at all levels. Additionally, CMP partners with the Sacramento County Office of Education Beginning Teacher Support and Assessment (BTSA) Consortium to offer quality professional development opportunities for all staff and state-approved induction pathways for newly credentialed teachers. Through the school's BTSA program, all newly credentialed teachers are matched to a veteran teacher for two years of one-on-one mentoring and assistance.

Finally, CMP offers both tuition assistance and financial incentives to those teachers who pursue cross certification in Montessori education through accredited training centers. This additional level of teacher preparation consists of a rigorous course of study combined with practical classroom experience. In combination with CMP's entire professional development program, we are confident that the result is highly-trained teachers who are ready to lead our students into the 21st Century.

Suspensions and Expulsions

School Facilities

The CMP Elk Grove Campus facility is a former public school campus leased through the Cosumnes Community Services District. The facility houses five traditional classrooms, four large portable classrooms and an office. Our Middle School Program resides in classrooms housed within the Elk Grove Congressional Church complex adjacent to our school grounds.

This year we leased an additional classroom in our complex. This allowed us to establish another 4th/5th grade classroom to accommodate our growing population.

The school grounds include a spacious field, a playground, and a large asphalt play area with a basketball court.

Custodial and maintenance services are provided in the late afternoon and evening through contractual services and parent volunteers.

CMP Elk Grove Campus is currently looking for a larger facility in the Elk Grove area to accommodate the school's growing population.

Suspensions and Expulsions

This table shows the rate of suspensions and expulsions (the total number of incidents divided by the school's total enrollment) for the most recent three-year period.

Standardized Testing and Reporting Program

The Standardized Testing and Reporting (STAR) Program consists of several key tests, including the California Standards Test (CST), California Modified Assessment (CMA), and California Alternate Performance Assessment (CAPA). The CSTs are multiple choice tests in English-language arts, mathematics, science, and history-social science for varying grade levels. Some grade levels also participate in an essay writing test.

The CSTs are used to determine students' achievement of the California Academic Content Standards. These standards describe the knowledge and skills that students are expected to learn at each grade level and subject.

The CMA is a modified assessment for students with disabilities who have an Individualized Education Plan (IEP). It is designed to assess those students whose disabilities prevent them from achieving grade-level proficiency on an assessment of the content standards with or without accommodations.

The CAPA is an alternate assessment for students with significant cognitive disabilities who are unable to take the CST with accommodations or modifications or the CMA with accommodations.

For a complete report on all tests, participation, groups, and their scores by grade level, please visit <http://star.cde.ca.gov/>. To learn more about the STAR Program, please visit the guide at www.cde.ca.gov/ta/tg/sr/documents/starpkt5intrpts.pdf.

STAR Results for All Students: Three-Year Comparison

The Standardized Testing and Reporting (STAR) results are reported as performance levels in order to compare student achievement to state standards. The five performance levels are: **Advanced** (*exceeds state standards*); **Proficient** (*meets state standards*); **Basic**; **Below Basic**; and **Far Below Basic**. Students scoring at the Proficient or Advanced level meet state standards in that content area. The tables below show the percentage of students that scored at Proficient or Advanced levels in English-language arts, mathematics, science, and history-social science.

Academic Performance Index

The Academic Performance Index (API) is an annual measure of the academic performance and progress of schools in California. The API is a score on a scale of 200 to 1,000 that reflects a school's, district's or a student group's performance level, based on the results of statewide testing. An API score of 800 is set as the statewide target.

Each annual API reporting cycle includes a Base and a Growth API. The Base API starts the reporting cycle and is released approximately a year after testing (i.e., The 2008 Base is calculated from results of statewide testing in spring 2008 but is released in May 2009). The Growth API is released after the Base API but is calculated from test results from the following year (i.e., The Growth API is calculated from results of statewide testing in spring 2009 and released in August 2009). Therefore, for the 2008-09 API reporting cycle, the 2008 Base indicator and 2009 Growth indicator are used. To learn more about API, please visit the API information guide at www.cde.ca.gov/ta/ac/ap/documents/infoguide08.pdf and the API overview guide at www.cde.ca.gov/ta/ac/ay/documents/overview09.pdf.

API Testing Note: Assessment data are reported only for numerically significant groups. To be considered 'numerically significant' for the API, the group must have either: (1) at least 50 students with valid test scores who make up at least 15% of the total valid scores, or (2) at least 100 students with valid test scores.

Academic Performance Index Ranks

Schools are ranked in ten categories of equal size, called deciles, from 1 (lowest) to 10 (highest) based on their API Base reports. A school's "statewide rank" compares its API to the APIs of all other schools statewide of the same type (elementary, middle, or high school). A "similar schools rank" reflects how a school compares to 100 statistically matched similar schools. This table shows the school's three-year data for statewide API rank and similar schools API rank, for which information is available.

Academic Performance Index Growth

This table displays, by student group, the actual API change in points added or lost for the past three years, and the 2009 API score.

-Maria Montessori

California Physical Fitness Test

Each spring, all students in grades 5 and 7 are required to participate in the California Physical Fitness Test (PFT). The State Board of Education (SBE) designated the *Fitnessgram*® as the PFT for students in California public schools. The test measures six key fitness areas:

1. Aerobic Capacity
2. Body Composition
3. Flexibility
4. Abdominal Strength and Endurance
5. Upper Body Strength and Endurance
6. Trunk Extensor Strength and Flexibility

The primary goal of the *Fitnessgram*® is to assist students in establishing lifetime habits of regular physical activity. The table shows the percent of students meeting the fitness standards for the most recent testing period. For more detailed information on the California PFT, please visit www.cde.ca.gov/ta/tg/pf/.

Percentage of Students Meeting Fitness Standards

Adequate Yearly Progress

The No Child Left Behind (NCLB) Act requires that all schools and districts meet Adequate Yearly Progress (AYP) requirements. To meet these standards, California public schools and districts must meet or exceed criteria in four target areas:

1. Participation rate on statewide assessments in English-language arts and mathematics
2. Percentage of students scoring proficient on statewide assessments in English-language arts and mathematics
3. API scores
4. Graduation rate for high schools

The table displays whether or not the school and district made AYP overall and met each of the AYP criteria for 2008-09. For more information, please visit www.cde.ca.gov/ta/ac/ay/.

Federal Intervention Program

Schools and districts that receive Title I funding can enter Program Improvement (PI) if they fail to meet AYP over two consecutive years in the same content area (English-language arts or mathematics) or on the same indicator (API or graduation rate). With each additional year they don't meet AYP, they advance to the next level of intervention. This table displays the 2009-10 Program Improvement status for the school and district. No Child Left Behind Compliant Teachers

NCLB requires that all teachers of core academic subject areas be "highly qualified." In general, for a teacher to be considered highly qualified, they must have a bachelor's degree, an appropriate California teaching credential, and have demonstrated competence for each core subject he or she teaches. The table displays data regarding NCLB compliant teachers from the 2008-09 school year. For more information on teacher qualifications related to NCLB, please visit www.cde.ca.gov/nclb/sr/tq.

Types of Services Funded

California Montessori Project receives Federal American Recovery and Reinvestment Act of 2009 (ARRA) funds, Federal Local Assistance funds for Special Education through the YCOE SELPA (Yuba County Office of Education - Special Education Local Plan Area), and Class Size Reduction (CSR) monies.

Additional reading support is provided through a Read Naturally pull-out program during school day afternoons, provided by a credential teacher.

Credentialed staff also offers no-cost, after-school tutoring programs targeting at-risk students.

SARC: Data provided by the California Department of Education (CDE), school and the district office. For additional information on facts about California schools and districts, please visit DataQuest at <http://data1.cde.ca.gov/dataquest>. DataQuest is an online resource that provides reports for accountability, test data, enrollment, graduates, dropouts, course enrollments, staffing and data regarding English Learners.
